# 1 Introduction

## 1.1 Parks, Greenspace & Cemeteries Service Vision

Edinburgh values its reputation as one of the most beautiful cities in Europe, renowned for its setting, history and built heritage. Parks and green spaces are integral to this. They serve as a stage for our public lives and are settings where celebrations are held, where social exchanges take place, where friends mix, where cultures run into each other, where nature thrives and where people revive themselves from the stresses of urban living.

The Parks, Greenspace & Cemeteries Service is committed to providing quality parks for residents and visitors alike. There are five qualities that make a park great and drive the work of the Parks, Greenspace & Cemeteries Service: They must be full of activity and invite affection. They must also be visible and accessible as well as being comfortable and safe. They also need to be places you can count on, no matter if you visit the park every day or once a year.

Using the Green Flag judging criteria all of Edinburgh's parks are assessed on an annual basis and a Parks Quality Score is produced for each site. These scores are compared to the Edinburgh Minimum Standard which has been developed to benchmark our parks and record how they are improving.

In Edinburgh, the involvement of local residents through a network of Friends groups is well established. Depending on their capacity, sites host both major and local events and activities, offering a wide range of attractions to families and individuals from a diverse community.

The Parks, Greenspace & Cemeteries Service ensures that Edinburgh's parks and greenspaces are clean, safe, colourful and diverse; they will be the setting for activities and celebrations; be well-known for their features, history and "happenings"; and be locally valued and used.

To this end our vision is:

**"A quality parks system worthy of international comparison; accessible, diverse and environmentally rich; which fulfils the cultural, social and recreational needs of the people"**.

Figgate Park

## 2 Methodology

### 2.1 Green Flag Forum

The Green Flag Forum consists of parks management, site managers, key officers and a representative from the greenspace forum that oversees the Park Quality Assessment (PQA) and Edinburgh's Green Flag Award (GFA) programmes.

The forum meets in November each year to discuss the recent PQA and GFA results with a view to identifying local and citywide park improvements. It also agrees on the methodology to be used in the next round of assessments, making changes where necessary but ensuring year on year analysis is retained. It also agrees on targets for the Edinburgh Minimum Standard and identifies and approves sites for Green Flag Award submission.

### 2.2 Green Flag Award

Green Flag Award is the national and fast becoming, international standard for parks and green spaces. The award scheme began in 1996 as a means of recognising and rewarding the best green spaces in the country. It is also seen as a way of encouraging others to achieve the same high environmental standards, creating a benchmark of excellence in recreational green areas.

The scheme is run under UK Government licence by Keep Britain Tidy who use regional operators to deliver the scheme in other countries. In Scotland the scheme is run by Keep Scotland Beautiful.

### 2.3 Criteria Used

Whilst the Green Flag Award contains both desk and field assessments, this PQA programme is limited to field assessments carried out by Council officers, external partners and members of the community trained in assessing parks using Green Flag criteria. Thus, the final 'Parks Quality Score' (PQS) should not be read as the site's score against the Green Flag Award but should be used for indicative purposes only.

Criteria that cannot be judged during a site visit are assessed as a desktop exercise by the site manager using guidance set by the Green Flag Forum. This approach provides a fuller view of a park's quality.

Listed below are the formal categories and criteria as set out in the 'Raising the Standard' manual. The criteria in red were not used in the 2022 PQA.

#### **A Welcoming Park**

- Welcoming
- Good and safe access
- Signage
- Equal access for all

#### **Healthy, Safe and Secure**

- Appropriate levels of quality facilities
- Safe equipment & facilities
- Personal security in park
- Control of dogs / fouling.

#### **Conservation and Heritage**

- Management of natural features, wild fauna and flora (Biodiversity)
- Conservation of landscape features (*Desktop Assessment*)
- Conservation of buildings and structures

#### **Community Involvement**

- Community involvement in management and development (*Desktop Assessment*)
- Appropriate provision for the community (*Desktop Assessment*)

### Well Maintained and Clean

- Litter and waste management
- Horticultural maintenance
- Arboricultural maintenance
- Buildings & infrastructure maintenance
- Equipment maintenance

### Environmental Management

- Managing Environmental Impact (*Desktop Assessment*)
- Waste minimisation (*Desktop Assessment*)
- Chemical Use (*Desktop Assessment*)
- Peat use (*Desktop Assessment*)
- Climate Change Adaptation Strategy (*Desktop Assessment*)

### Marketing

- Marketing and promotion (*Desktop Assessment*)
- Appropriate information
- Appropriate educational & interpretational information

### Management

- **Implementation of the management plan**

*Criteria names may be abbreviated in this document where space is limited.*

## 2.4 Assessment Accuracy

To maximise consistency and accurate scoring for each site, assessment teams were led by an experienced officer who in some cases is also a formal Green Flag Award judge. There was also additional guidance included in the assessment documentation which included previous scores and comments along with the site manager's response from the previous assessment and a list of improvements carried out since the last assessment.

A judging manual is available for new judges who can also access the Green Flag Award 'Raising the Standard' document from the GFA website which provide some information on the process and criteria used. However, new judges primarily received 'training' during the first assessment by the Lead Assessor who would explain the process and provide a more practical interpretation of the criteria.

To allow scrutiny to take place, provisional site results were made available to site managers, as soon as possible following the assessment. Site managers were asked to involve friends & community groups (where available) when scrutinising any provisional results. This allowed rectification of any clear judging errors before results were finalised.

## 2.5 Scoring of Criteria

Each individual criterion was scored out of 10. Criteria that did not apply to a particular site – e.g. 'conservation of buildings or structures' on a site where no applicable buildings or structures are present – were scored as not applicable and were therefore not included in the total score or average calculations.

The Green Flag Forum agreed to use the scoring system below to assess their sites.

Score	0	1	2	3	4	5	6	7	8	9	10
Description	N/A	Very Poor	Low Poor	Mid Poor	High Poor	Low Fair	High Fair	Good	Very Good	Excellent	Exceptional

## 2.6 Park Quality Score

Park quality scores were obtained by adding together all the criteria scores and dividing the total by the number of applicable criteria resulting in an average score. This score is then multiplied by 100 to obtain a Park Quality Score (PQS) expressed as a percentage. The maximum score available was therefore 100% for each site.

## 2.7 Park Gradings

In 2009, bandwidths were introduced to accommodate the natural variance of assessors due to the subjective aspect of the assessments with a 10% variance between assessors deemed acceptable. It was agreed that each park should be described as either ‘Excellent’, ‘Very Good’, ‘Good+’, ‘Good’, ‘Fair’ or ‘Poor’ but that the bandwidth scores should be set differently for each park classification due to the perceived expectations of quality to be found in each type.

However, following feedback stating that they were too complicated, the bandwidths and gradings were reviewed in 2018, and a simplified grading system was agreed (see table below), making it easier to understand.

All previous data as been retrospectively amended to show the data in the new grading format to enable year on year analysis.

	Grade A	Grade B	Grade C	Edin Min Std	Grade D	Grade E
All Parks & Cemeteries	100%-80%	79% - 70%	69% - 60%	<b>60%</b>	59% - 50%	49% - 0%

## 2.8 Edinburgh Minimum Standard

In 2009, and in conjunction with the gradings, it was also agreed that there should be a parks quality score that acted as the Edinburgh Minimum Standard (EMS) for parks. Similar to the park gradings at the time, it was also agreed to be set at a different level for each park type.

As part of the review of bandwidths and gradings in 2018, it was also agreed that with 97% of parks meeting the minimum score, it would be an opportune time to set a new EMS and as such the new mark was set at Grade C (60%+) for all park types.

## 2.9 Sites

With no changes to the list, **141 park** and **16 Cemeteries** were identified to be assessed in 2022 with each site being assessed once.

Whilst Cemeteries are selected for assessment, the Green Flag Forum agreed that their results **do not** contribute towards performance or Locality result.

A full list of these parks alphabetically can be found in the appendices.

## 2.10 Localities

Natural Heritage Service and Botanical Service managed sites continue to be included within Locality performance results due to the geographical aspects of the sites along with the continued support they obtain from the Locality, however as stated previously, cemetery sites do not.

For information purposes, separate sections showing the results of the Natural Heritage Service sites and Cemetery sites are included in this document.

## 2.11 Assessors

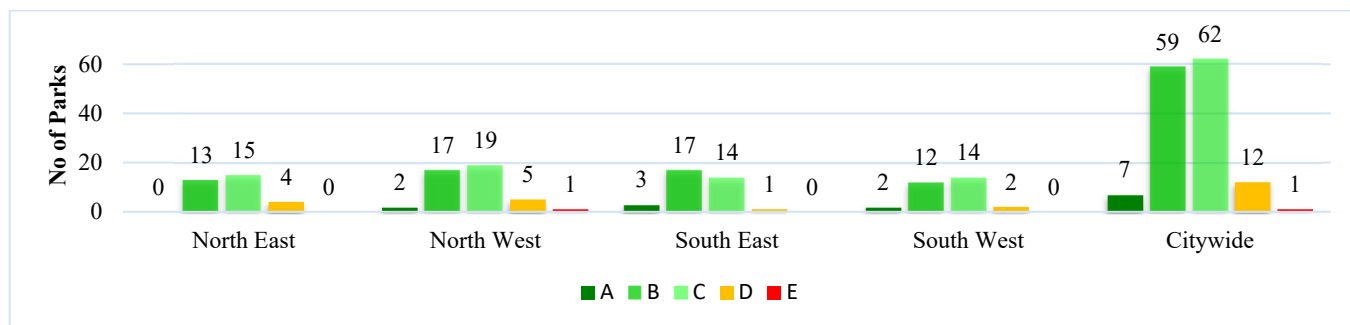

Assessments were undertaken by Lead Assessors (council officers who are either Green Flag Award judges and or experienced parks & greenspace officers) who either assessed the park as a solo judge or with the help of up to three assistant assessors (mostly friends of park’s group members).

### 3 Performance Results

#### 3.1 Grading Summary

The chart and table below show the number (and percentage) of park gradings for 2022.

Locality	No of Parks	Grade A	Grade B	Grade C	Grade D	Grade E
North East Edinburgh	32	0 0%	13 41%	15 47%	4 13%	0 0%
North West Edinburgh	44	2 5%	17 39%	19 43%	5 11%	1 2%
South East Edinburgh	35	3 9%	17 49%	14 40%	1 3%	0 0%
South West Edinburgh	30	2 7%	12 40%	14 47%	2 7%	0 0%
<b>Citywide</b>	<b>141</b>	<b>7 5%</b>	<b>59 42%</b>	<b>62 44%</b>	<b>12 9%</b>	<b>1 1%</b>

#### 3.2 Grading & PQS Movements

The charts and table below show the number (and percentage) of grade & score movements over the Short Term (year on year) and Long Term (Grade - compared against grade five years ago or most distant assessment. Score – current score compared against the five-year average)

Locality	Term	Grade Movements			Score Movements		
		Up	Static	Down	Up	Static	Down
North East (32 Parks)	Short Term	5 (16%)	21 (66%)	6 (19%)	13 (41%)	7 (22%)	12 (38%)
	Long Term	11 (34%)	18 (56%)	3 (9%)	24 (75%)	0 (0%)	8 (25%)
North West (44 Parks)	Short Term	3 (9%)	27 (77%)	5 (14%)	13 (37%)	9 (26%)	13 (37%)
	Long Term	18 (20%)	24 (69%)	2 (11%)	35 (80%)	1 (2%)	8 (18%)
South East (35 Parks)	Short Term	3 (9%)	27 (77%)	5 (14%)	13 (37%)	9 (26%)	13 (37%)
	Long Term	7 (20%)	24 (69%)	4 (11%)	13 (37%)	2 (6%)	20 (57%)
South West (30 Parks)	Short Term	1 (3%)	2 (7%)	27 (90%)	12 (40%)	3 (10%)	15 (50%)
	Long Term	13 (43%)	17 (57%)	0 (0%)	21 (70%)	2 (7%)	7 (23%)
Citywide (141 Parks)	Short Term	14 (10%)	18 (13%)	109 (77%)	58 (41%)	26 (18%)	57 (40%)
	Long Term	49 (35%)	83 (59%)	9 (6%)	93 (66%)	5 (4%)	43 (30%)

### 3.3 Park Quality Score and Criteria Averages

The table below shows the average Parks Quality Score for the last five assessments and short-term trend.

Locality	No of Parks	2017	2018	2019	2021	2022	Trend
North East Edinburgh	32	64%	64%	64%	68%	67%	↓
North West Edinburgh	44	63%	65%	66%	67%	68%	↑
South East Edinburgh	35	70%	71%	71%	71%	70%	↓
South West Edinburgh	30	65%	66%	70%	70%	70%	→
<b>Citywide</b>	<b>141</b>	<b>65%</b>	<b>66%</b>	<b>68%</b>	<b>69%</b>	<b>69%</b>	<b>→</b>

The table below shows the criteria average scores for each Locality and citywide. The trend arrow next to each score indicates that scores movement compared to the previous assessment.

Criteria	North East			North West			South East			South West			Citywide		
	21	22	Tr	21	22	Tr	21	22	Tr	21	22	Tr	21	22	Tr
<b>Welcoming</b>															
Welcoming	6.3	6.2	↓	6.7	6.8	↑	6.9	6.7	↓	6.8	6.5	↓	6.7	6.6	↓

### 3.4 Edinburgh Minimum Standard

Performance indicators have been developed to drive improvement and which measures and sets targets for the percentage of sites in each Locality that meet the Edinburgh Minimum Standard.

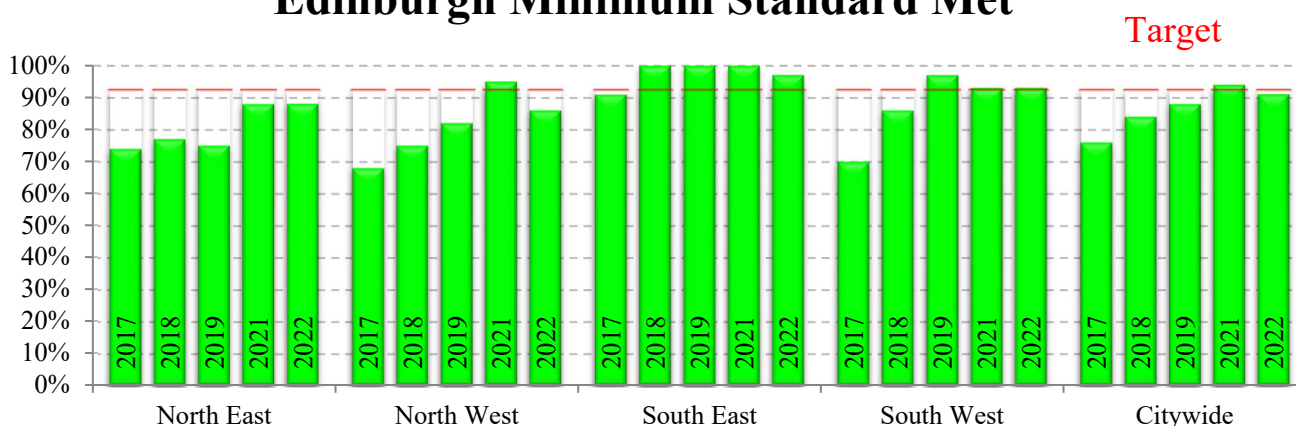

It should be noted that the Edinburgh Minimum Standard was changed to a Parks Quality Score of 60% in 2018 which resulted in a significant drop in performance score when compared against the old standard.

The targets and performance since 2008 are listed below including the old EMS (up until 2017) and the new EMS which has been retrospectively amended to show year on year comparison.

	08	09	10	11	12	13	14	15	16	17	18	19	21	22
<b>Target</b>	55%	65%	70%	75%	80%	90%	91%	92%	92%	92%	92%	92%	92%	92%
<b>Perf Old EMS</b>	56%	61%	68%	82%	82%	92%	91%	94%	96%	97%				
<b>Perf New EMS</b>	17%	17%	28%	36%	43%	50%	53%	60%	67%	76%	84%	88%	94%	91%

The tables and chart below show the percentage of sites meeting the Edinburgh Minimum Standard in each Locality and citywide over the last five assessments. Due to the fluctuation in the number of sites, the actual number of parks meeting the standard along with the number of parks assessed have been included for information.

### Edinburgh Minimum Standard Met

Locality	2017	2018	2019	2021	2022	Trend	Target Met
North East	23/31	24/31	24/32	28/32	<b>28/32</b>	→	✘
Edinburgh	74%	77%	75%	88%	<b>88%</b>		
North West	30/44	33/44	36/44	42/44	<b>38/44</b>	↓	✘
Edinburgh	68%	75%	82%	95%	<b>86%</b>		
South East	31/34	34/34	35/35	35/35	<b>34/35</b>	↓	✔
Edinburgh	91%	100%	100%	100%	<b>97%</b>		
South West	21/30	25/29	29/30	28/30	<b>28/30</b>	→	✔
Edinburgh	70%	86%	97%	93%	<b>93%</b>		
<b>Citywide</b>	105/139	116/138	124/141	133/141	<b>128/141</b>	↓	✘
	76%	84%	88%	94%	<b>91%</b>		

## 4 Citywide Results

4.1 Listed below are all parks in quality order. Parks listed by Locality can be found from page 19.

Rank	Tr	Rk +/-	Park Name	GFA Park	Park Type	Locality	PQS 2021	PQS 2022	+ / - PQS
1	➔	0	Starbank Park		Community	North West	89% (A)	87% (A)	-2%

## 4.3 Results Summary

### Gradings

Of the 141 parks that were assessed in 2022, Seven parks achieved 'Grade A' (one more than last year) with another three parks only one point away. The number of 'Grade B' parks stayed the same as last year at 59 with five parks only one point away from the mark, but 12 of the 59 parks only just made it with a PQS of 70% and five of those showed a drop in PQS from the previous year. The number of parks achieving 'Grade C' and meeting the 'Edinburgh Minimum Standard' stands at 62 (six fewer than last year) but again five parks are hovering just one point away from improving a grade, however, **Granton Crescent Park** (North West) just made the mark dropping three points from last year.

At the other end of the scale, 12 parks were judged to be 'Grade D' (four more than last year) and the four parks only one point away from 'Grade C' all showed significant drops in PQS and a drop in grade leaving them all a bit of work to do to try and turn things around. Unfortunately, from having no 'Grade E' parks last year, **Ratho Station Flyover Park** (North West) dropped in grade leaving it as the only 'Grade E' park this year.

The results also showed that 14 parks (10%) (11 fewer than last year) moved up a grade whilst 109 parks (77%) stayed the same but 18 (13%), (eight more than last year) dropped a grade from 2021.

### Park Quality Scores

Although grades take into account the natural variance of judges' scoring and provide an indicative quality description for each park, it can be interesting to explore a little deeper into Park Quality Scores (PQS).

Fifty Eight (41%) parks improved their score from the last assessment (23 fewer than last year) but unfortunately, 57 (40%) of Edinburgh's parks also fell in quality (17 more than last year).

Looking longer term, the results show that whilst 93 parks have improved over five assessments, 43 have deteriorated and 32 of those are also showing drops this year.

The citywide average PQS stands at 69% (the same as last year) and which for the first time since assessments began, has failed to increase year on year.

**Starbank Park** (North West) was judged to be the highest scoring park in Edinburgh once again but dropped two points to 87%. **Easter Craiglockhart Hill** was second on 86% with the same score as last year and **Pentland Hills Regional Park** was third with 83% but unfortunately dropped two points for the second year running.

At the other end of the table, **Ratho Station Flyover Park** (North West), judged to be the worst park in 2021, retains the unwanted accolade by dropping a further five points to 48%.

**Pike's Pool** (North West) and **Keddie Park** (North East) were the most improved parks in 2022 by six points to 68% and 65% respectively whilst **Nicolson Square** (South East) and **Redford Woods** (South West) deteriorated most, dropping ten and eight points respectively, and both now sit on 63%.

### Edinburgh Minimum Standard

In 2022, 128 (91%) of the 141 parks assessed met the standard, compared to the 133 (94%) last year but missed the 92% target.

The target was also missed by North East Edinburgh which achieved the same 88% score as last year and North West Edinburgh which dropped nine points (four parks) to 86%. The target was met however by South West Edinburgh which remained on 93% and South East Edinburgh although it dropped three points (one park) to 97%.

Fourteen parks sit within two points either side of the 60% mark and whilst six returned scores that remained static or improved, eight dropped scores from last year and which should be targeted for improvement along with the other sites not reaching the minimum standard.

## 4.4 Criteria Average Score Summary

Criteria average scores are useful in highlighting which criteria are improving or worsening year on year both at citywide and area levels (see area results for Locality scores). We can also look back over a set number of years which can be used to evidence whether or not strategic actions are having the desired effect. The five-year trend indicator in the table below is calculated by comparing the current year against the five-year average.

In 2022, over the short term, 10 out of 26 criteria average scores improved whilst seven fell and longer term, 18 improved whilst five showed drops.

Area's worth highlighting this year are citywide increases both short and long term, for **Horticultural Maintenance**, **Infrastructure Maintenance** and **Access** criteria but **Dog Fouling** and **Facility Provision** are showing downward trends over both the short and long term as did **Signage** which is linked in part to **Information** and **Interpretative Provision** as well as **Equipment Maintenance** and this is perhaps an indication to look at these aspects together.

In total, there were 520 instances where criteria scores improved, 2444 stayed the same and 520 dropped. This information along with the Highlighted Issues, Actions & Recommendations in section 4.5, could be used to identify areas where attention is needed most.

The table below shows the citywide criteria average scores over the last five assessments along with an indication of the current and five-year trend, and how many park criteria scores improved, remained static or deteriorated.

## 4.5 Highlighted Issues, Actions & Recommendations

As part of the park assessment, judges are asked to highlight any issues found on site and provide three priority recommendations for each park that, based on their findings, would improve the quality of the park.

These issues are identified as actions and collated/aligned against criteria to give a broader view of where issues lie. The data provided here excludes actions identified from Cemetery assessments.

In total, 2512 actions were identified through the assessments in including 423 priority recommendations. This amounted to an average of 18 actions/recommendations per park.

The chart below shows the number of citywide actions and recommendations for each of the categories.

## **4.6 Park Improvements & Management Plans**

Park Quality Assessments provide site managers with specific information that can be used to identify areas for improvement, promotion or the sharing of good practice as well as using the results to evidence recent improvements/strategies are having the desired effect.

The information in section 4.5 is also available to managers at a level that identifies the type of action in each of the criteria and along with the collated data in this document can be used to identify an area or citywide based approach rather than by individual parks.

It is intended that managers use all the available information to create or update park improvement/action plans. This is particularly important where the site is a current Green Flag Award park and the action plan forms part of the management plan which needs to be updated regularly.

Prior to the next round of assessments, site managers are asked to provide an update with regards to the desktop scores, list of improvements carried out since the last assessment date and a response to the previous assessment that should also include an update on the status of any identified actions.

Currently the number of actions/recommendations are not reported as a performance measure.

## **4.7 Green Flag Forum Meeting**

The Green Flag Forum is, subject to availability, attended by all site managers, parks management and other key officers along with a Friends Group representative. The meeting usually takes place around the start of November to allow time for any actions to be completed before PQA and GFA deadlines.

The meeting follows a set agenda as listed below but is primarily used to discuss the recent PQA and GFA results, agreeing the sites, methodology and personnel for the next round of PQA and GFA assessments but is also sufficiently informal enough to provide an opportunity to discuss any local and citywide parks issues and actions.

### **1. Green Flag Award**

#### 1.1. Overview of recent GFA results.

- Peer Review result if available.
- Matters arising from results.

#### 1.2. Green Flag Group Award & New Sites

- New sites to be submitted for the award.
- Agreement of existing sites continuing in the next round of GF Group Award scheme.
- Actions needed to ensure compliance with scheme requirements.

#### 1.3. Any other GFA business.

### **2. Park Quality Assessments**

#### 2.1. Overview of recent PQA results

- Summary of issues identified through the assessment.
- Actions to improve parks failing to meet the Edinburgh Minimum Standard.
- Other matters arising from results.

#### 2.2. PQA Next round of assessments

- Agree sites, methodology and personnel to be involved.
- Judge guidance/training updates.
- Agree desktop guidance and scoring and site manager returns.
- Agree EMS target

#### 2.3. Any other PQA business.

### **3. Any other business.**

## 5 Area Results – North East Edinburgh

### 5.1 North East Edinburgh – 32 Parks

Parks are listed in alphabetical order and show the grades & scores over the last five assessments, PQS Short-Term (year on year) and Long-Term (current year compared against the five-year average\*) trend indicators and whether the park currently meets the Edinburgh Minimum Standard.

\* = Long Term is described as the five-year average but as no assessments took place in 2020, the last five assessments (where available) are used instead.

### 5.1.1 North East Edinburgh - Grades, Scores & Edinburgh Minimum Standard

#### Grade Distribution – Current Year

#### Grade Movements – Short Term

#### Grade Movements – Long Term

#### Score Movements – Short Term

#### Score Movements – Long Term

#### Park Quality Score Averages

#### Percentage of Parks Meeting Edinburgh Minimum Standard

## 5.1.2 North East Edinburgh - Criteria Scores Averages & Trends

Over the short term, eight out of 26 criteria average scores improved whilst eight fell and longer term, 17 improved and seven showed drops.

Aspects worth highlighting this year are good increases both short and long term, for **Horticultural Maintenance**, **Infrastructure Maintenance** and **Litter Management** but **Dog Fouling** and **Facility Provision** are showing downward trends over both the short and long term as is **Signage** which is linked in part to **Information** and **Interpretative Provision**, and this is perhaps an indication to look at these aspects together.

In total, there were 113 instances where criteria scores improved, 578 stayed the same and 102 dropped. This information along with the Highlighted Issues, Actions & Recommendations could be used to identify areas where attention is needed most.

The table below shows the Locality criteria average scores over the last five assessments along with an indication of the Short-Term trend (year on year) and Longer-Term five-year trend (comparing the current year against the five-year average) and how many park criteria scores improved, remained static or deteriorated.

Criteria	2017	2018	2019	2021	2022	ST	LT	No of Parks

### 5.1.6 North East Edinburgh - Highlighted Issues, Actions & Recommendations

As part of the park assessment, judges are asked to highlight any issues found on site and provide three priority recommendations for each park that, based on their findings, would improve the quality of the park.

These issues are identified as actions and collated/aligned against criteria to give a broader view of where issues lie. The data provided here excludes actions identified from Cemetery assessments.

In total, 567 actions were identified through the assessments in North East Edinburgh including 96 priority recommendations. This amounted to an average of 18 actions/recommendations per park.

The chart below shows the number of citywide actions and recommendations for each of the categories.

## 5.2 Area Results – North West Edinburgh

### 5.2.1 North West Edinburgh – 44 Parks

Parks are listed in alphabetical order and show the grades & scores over the last five assessments, PQS Short-Term (year on year) and Long-Term (current year compared against the five-year average\*) trend indicators and whether the park currently meets the Edinburgh Minimum Standard.

\* = Long Term is described as the five-year average but as no assessments took place in 2020, the last five assessments (where available) are used instead.

## 5.2.2 North West Edinburgh - Grades, Scores & Edinburgh Minimum Standard

### Grade Distribution – Current Year

### Grade Movements – Short Term

### Grade Movements – Long Term

### Score Movements – Short Term

### Score Movements – Long Term

### Park Quality Score Averages

### Percentage of Parks Meeting Edinburgh Minimum Standard

### 5.2.3 North West Edinburgh - Criteria Scores Averages & Trends

Over the short term, 12 out of 26 criteria average scores improved whilst only two fell and longer term, 22 improved and two showed drops.

Aspects worth highlighting this year are good increases both short and long term, for **Horticultural Maintenance**, **Infrastructure Maintenance**, **Welcoming** and **Good & Safe Access** but **Dog Fouling** and **Facility Provision** are showing downward trends over both the short and long term. **Signage** has remained unchanged for a few years and improved scores for **Information** and **Interpretative Provision** bucks the trend compared with other Localities.

In total, there were 182 instances where criteria scores improved, 754 stayed the same and 147 dropped. This information along with the Highlighted Issues, Actions & Recommendations could be used to identify areas where attention is needed most.

The table below shows the Locality criteria average scores over the last five assessments along with an indication of the Short-Term trend (year on year) and Longer-Term five-year trend (comparing the current year against the five-year average) and how many park criteria scores improved, remained static or deteriorated.

### 5.2.7 North West Edinburgh - Highlighted Issues, Actions & Recommendations

As part of the park assessment, judges are asked to highlight any issues found on site and provide three priority recommendations for each park that, based on their findings, would improve the quality of the park.

These issues are identified as actions and collated/aligned against criteria to give a broader view of where issues lie. The data provided here excludes actions identified from Cemetery assessments.

In total, 804 actions were identified through the assessments in North West Edinburgh including 132 priority recommendations. This amounted to an average of 18 actions/recommendations per park.

The chart below shows the number of citywide actions and recommendations for each of the categories.

## 5.3 Area Results – South East Edinburgh

### 5.3.1 South East Edinburgh – 35 Parks

Parks are listed in alphabetical order and show the grades & scores over the last five assessments, PQS Short-Term (year on year) and Long-Term (current year compared against the five-year average\*) trend indicators and whether the park currently meets the Edinburgh Minimum Standard.

\* = Long Term is described as the five-year average but as no assessments took place in 2020, the last five assessments (where available) are used instead.

### 5.3.2 South East Edinburgh - Grades, Scores & Edinburgh Minimum Standard

#### Grade Distribution – Current Year

#### Grade Movements – Short Term

#### Grade Movements – Long Term

#### Score Movements – Short Term

#### Score Movements – Long Term

#### Park Quality Score Averages

#### Percentage of Parks Meeting Edinburgh Minimum Standard

### 5.3.3 South East Edinburgh - Criteria Scores Averages & Trends

Over the short term, seven out of 26 criteria average scores improved whilst nine fell and longer term, 11 improved and 11 showed drops.

Aspects worth highlighting this year are good increases both short and long term, for **Equal Access**, **Safe Facilities**, **Arboricultural Maintenance** and **Community Involvement** but **Dog Fouling**, **Horticultural Maintenance**, **Facility Provision** are showing downward trends over both the short and long term as is **Signage** which is linked in part to **Information** and **Interpretative Provision**, and this is perhaps an indication to look at these aspects together.

In total, there were 133 instances where criteria scores improved, 588 stayed the same and 155 dropped. This information along with the Highlighted Issues, Actions & Recommendations, could be used to identify areas where attention is needed most.

The table below shows the Locality criteria average scores over the last five assessments along with an indication of the Short-Term trend (year on year) and Longer-Term five-year trend (comparing the current year against the five-year average) and how many park criteria scores improved, remained static or deteriorated.

### 5.3.7 South East Edinburgh - Highlighted Issues, Actions & Recommendations

As part of the park assessment, judges are asked to highlight any issues found on site and provide three priority recommendations for each park that, based on their findings, would improve the quality of the park.

These issues are identified as actions and collated/aligned against criteria to give a broader view of where issues lie. The data provided here excludes actions identified from Cemetery assessments.

In total, 600 actions were identified through the assessments in South East Edinburgh including 105 priority recommendations. This amounted to an average of 17 actions/recommendations per park.

The chart below shows the number of citywide actions and recommendations for each of the categories.

## 5.4 Area Results – South West Edinburgh

### 5.4.1 South West Edinburgh – 30 Parks

Parks are listed in alphabetical order and show the grades & scores over the last five assessments, PQS Short-Term (year on year) and Long-Term (current year compared against the five-year average\*) trend indicators and whether the park currently meets the Edinburgh Minimum Standard.

\* = Long Term is described as the five-year average but as no assessments took place in 2020, the last five assessments (where available) are used instead.

## 5.4.2 South West Edinburgh - Grades, Scores & Edinburgh Minimum Standard

### Grade Distribution – Current Year

### Grade Movements – Short Term

### Grade Movements – Long Term

### Score Movements – Short Term

### Score Movements – Long Term

### Park Quality Score Averages

### Percentage of Parks Meeting Edinburgh Minimum Standard

### 5.4.3 South West Edinburgh - Criteria Scores Averages & Trends

Over the short term, four out of 26 criteria average scores improved whilst nine fell and longer term, 19 improved and six showed drops.

Aspects worth highlighting this year are increases both short and long term, for **Safe Facilities** and **Conservation of Buildings** but **Dog Fouling**, **Facility Provision** and **Equipment Maintenance** are showing downward trends over both the short and long term. **Signage**, **Information** and **Interpretative Provision** all fell this year but showing an increase over the longer term and with other areas of the city suffering similar drops, it is perhaps an indication to look at these aspects together.

In total, there were 92 instances where criteria scores improved, 524 stayed the same and 118 dropped. This information along with the Highlighted Issues, Actions & Recommendations, could be used to identify areas where attention is needed most.

The table below shows the Locality criteria average scores over the last five assessments along with an indication of the Short-Term trend (year on year) and Longer-Term five-year trend (comparing the current year against the five-year average) and how many park criteria scores improved, remained static or deteriorated.

### 5.4.7 South West Edinburgh – Highlighted Issues, Actions & Recommendations

As part of the park assessment, judges are asked to highlight any issues found on site and provide three priority recommendations for each park that, based on their findings, would improve the quality of the park.

These issues are identified as actions and collated/aligned against criteria to give a broader view of where issues lie. The data provided here excludes actions identified from Cemetery assessments.

In total, 541 actions were identified through the assessments in South West Edinburgh including 90 priority recommendations. This amounted to an average of 18 actions/recommendations per park.

The chart below shows the number of citywide actions and recommendations for each of the categories.

## 5.5 Area Results - Natural Heritage Service Managed Sites

### 5.5.1 Natural Heritage Service – 13 Parks

Parks are listed in alphabetical order and show the grades & scores over the last five assessments, PQS Short-Term (year on year) and Long-Term (current year compared against the five-year average) trend indicators and whether the park currently meets the Edinburgh Minimum Standard.

\* = Long Term is described as the five-year average but as no assessments took place in 2020, the last five assessments (where available) are used instead.

#### Score Movements – Long Term

#### Park Quality Score Averages

#### % Meeting Edinburgh Minimum Standard

### 5.5.3 Natural Heritage Service – Criteria Scores Averages & Trends

Over the short term, nine out of 26 criteria average scores improved whilst 10 fell and longer term, 15 improved whilst nine showed drops.

Aspects worth highlighting this year are increases both short and long term, for **Access, Litter Management and Community Involvement** but **Dog Fouling, Facility Provision, Arboricultural Maintenance and Infrastructure Maintenance** are all showing downward trends over both the short and long term. **Signage and Information Provision** fell this year but are showing an increase over the longer term and with other areas of the city suffering similar drops, it is perhaps an indication to look at these aspects together.

In total, there were 48 instances where criteria scores improved, 238 stayed the same and 48 dropped. This information along with the Highlighted Issues, Actions & Recommendations, could be used to identify areas where attention is needed most.

The table below shows the Locality criteria average scores over the last five assessments along with an indication of the Short-Term trend (year on year) and Longer-Term five-year trend (comparing the current year against the five-year average) and how many park criteria scores improved, remained static or deteriorated.

### 5.5.6 Natural Heritage Service - Highlighted Issues, Actions & Recommendations

As part of the park assessment, judges are asked to highlight any issues found on site and provide three priority recommendations for each park that, based on their findings, would improve the quality of the park.

These issues are identified as actions and collated/aligned against criteria to give a broader view of where issues lie. The data provided here excludes actions identified from Cemetery assessments.

In total, 195 actions were identified through the assessments of Natural Heritage managed sites including 90 priority recommendations. This amounted to an average of 15 actions/recommendations per park.

The chart below shows the number of citywide actions and recommendations for each of the categories.

## 5.6 Area Results – Cemeteries Service Managed Sites

### 5.6.1 Cemeteries Service – 33 Sites (16 currently assessed)

The Cemeteries Service manage 33 sites across the city and between 2010 and 2012, all sites were to be assessed (Gogar was not assessed in 2012 due to access issues) until a decision was taken to stop assessing cemeteries. In 2018, six cemeteries were selected for assessment, and this was increased to 16 from 2019.

The table below shows all 33 sites listed in alphabetical order and show the grades & scores over the last five assessments (where available), PQS Short-Term (year on year) and Long-Term (current year compared against the four-assessment average, 2018-2022) trend indicators and whether the cemetery currently meets the Edinburgh Minimum Standard.

## 5.6.2 Cemeteries Service - Grades, Scores & Edinburgh Minimum Standard

### Grade Distribution – Current Year

### Grade Movements – Short Term

### Grade Movements – Long Term

### Score Movements – Short Term

### Score Movements – Long Term

### Park Quality Score Averages

### Percentage of Cemeteries Meeting Edinburgh Minimum Standard

### 5.6.3 Cemeteries Service - Criteria Scores Averages & Trends

Over the short term, 15 out of 26 criteria average scores improved whilst only one fell and longer term, 22 improved whilst one showed a drop.

Aspects worth highlighting this year are good increases, both short and long term, for **Signage, Education & Interpretation Provision, Horticultural Maintenance and Equipment Maintenance**. Only **Dog Fouling** dropped year on year and **Marketing & Promotion** was the only criteria to fall over the longer term.

In total, there were 99 instances where criteria scores improved, 268 stayed the same and 37 dropped. This information along with the Highlighted Issues, Actions & Recommendations could be used to identify areas where attention is needed most.

The table below shows the Cemetery criteria average scores over the last four assessments along with an indication of the Short-Term trend (year on year) and Longer-Term four-year trend (comparing the current year against the four-assessment average and how many park criteria scores improved, remained static or deteriorated.

### 5.6.6 Cemeteries Service - Highlighted Issues, Actions & Recommendations

As part of the assessment, judges are asked to highlight any issues found on site and provide three priority recommendations for each site that, based on their findings, would improve the quality of the cemetery.

These issues are identified as actions and collated/aligned against criteria to give a broader view of where issues lie.

In total, 249 actions were identified from the cemetery assessments including 48 priority recommendations. This amounted to an average of 16 actions/recommendations per park.

The chart below shows the number of citywide actions and recommendations for each of the criteria.

## 6 Green Flag Awards

Green Flag Awards are a way of recognising quality parks and greenspaces. The awards are given out on an annual basis and each site must submit an application each year. The scheme also involves a Green Flag Community Award which is to reward quality sites that are managed by the community.

In 2007, the Green Flag Award was trialled in Scotland with Edinburgh taking part along with Dundee. In that year, Edinburgh was successful in achieving two Green Flags (Braidburn Valley Park and Harrison Park). The chart at the bottom of the page demonstrates the number of Green Flag Award Parks achieved since 2007.

At the Green Flag Forum, it was agreed that no new parks would be submitted in 2022 which would allow managers to channel efforts into ensuring that the existing 35 sites continued to meet the standard through a period of change. Following a number of full and mystery shop assessments, all were successful in doing so. Corstorphine Hill Walled Garden achieved the Green Flag community Award for the thirteenth year running. A list and map of current Green Flag Award sites and associated data can be found on the following pages.

With regards to the numbers of Green Flag Award sites (excluding GF Community and Green Heritage Awards), City of Edinburgh Council ranks 1<sup>st</sup> in Scotland with 35 out of the 73 Green Flags awarded and 4<sup>th</sup> in the UK with only London Borough of Hillingdon (67), The Canal & River Trust (44) and Nottingham City Council (41) having more flags.

### 6.1 Green Flag Group Award

Since 2011, Edinburgh has participated in the Green Flag Group Award that sees the authority self assess existing sites annually and award a flag where the standards are maintained. However, these sites may also be subject to mystery shopper assessments which will see an external Green Flag judge arriving at the park unannounced and assess the site based on visitor experience. In addition, two peer judges assess the strategy the authority has to managing its greenspaces biennially and assesses the risk of the authority failing to maintain its Green Flag Award parks to the required standard. The last assessment in 2018 returned a successful 'Low Risk' result. The 2020 peer review was postponed because of Covid but Edinburgh is due to be assessed in late 2022 and the result will be included in future reports.

New sites identified for the award will continue to be assessed using the normal judging method of two judges assessing the management plan and undertaking a formal site visit and if successful the site will be included in future group award assessments.

## 6.2 Green Flag Award & Green Flag Community Award Parks

Listed below are the current Green Flag Award Parks managed by City of Edinburgh Council sorted by year first achieved.

Year	Park Name	Park Type	Management	Locality
2007	Braidburn Valley Park	Community	South East	South East
2007	Harrison Park	Community	South West	South West
2008	Pentland Hills Regional Park	Natural	Nat Heritage	South West
2009	Easter Craiglockhart Hill	Natural	Nat Heritage	South West
2009	Hopetoun Crescent Gardens	Garden	North East	North East
2010	Burdiehouse Burn Valley Park	Natural	Nat Heritage	South East

2015	Ferniehill Community Park	Community	South East	South East
2015	Rosefield Park	Community	North East	North East
2015	Starbank Park	Community	North West	North West
2016	Seven Acre Park	Community	South East	South East
2018	Fairmilehead Park	Community	South West	South West
2018	Lauriston Castle	Garden	Botanical	North West
2020	Saughton Park	Premier	Botanical	South West
2020	St Katharine's Park	Community	South East	South East
2021	Bloomiehall Park	Community	South West	South West
<b>Green Flag Community Award</b>				
2009	Corstorphine Hill Walled Garden	Community Garden	Friends of Corst. Hill	North West

\* Combined for Green Flag Award

Although not managed by the Council, Edinburgh has a further two Green Flag Awards in The Lawn & Central Woodlands at Heriot Watt University (pictured) and NHS Lothian's Royal Edinburgh Hospital Grounds.

The Friends of Corstorphine Hill successfully retained their Green Flag Community Award which they have held since 2009.

### 6.3 Green Flag Award 2022 Assessment Results

Full assessments involve judges carrying out a review of the current management documentation for the site (Desk Assessment) followed up by a site evaluation, usually involving management, staff, volunteers and visitors (Field Assessment). The Desk and Field assessments are scored separately and then the scores are combined to produce an overall score, A site must score a minimum of 15 on the desk assessment and 42 on the field assessment and 66 overall to achieve a pass with the final results returned as bandwidths.

Mystery shop assessments involve a judge visiting a site unannounced and assessing the site against 18 questions. The judge will grade each question as Green (pass), Amber (warning), Red (fail) or Not Applicable. The judge then uses the same Green, Amber & Red grading to indicate an overall result.

Full Assessments Park Name	Assessment Type	Desk	Field	Total	Overall Result	2022 PQS & Grade
Burdiehouse Burn Valley Park	Full Assessment	20-24	45-49	66-69	Pass	73% (B)
Fairmilehead Park	Full Assessment	20-24	45-49	66-69	Pass	74% (B)
Lauriston Castle	Full Assessment	15-19	45-49	66-69	Pass	72% (B)
Prestonfield Park	Full Assessment	20-24	45-49	66-69	Pass	75% (B)
Station Road Park	Full Assessment	20-24	45-49	66-69	Pass	75% (B)
Rosefield Park	Full Assessment	15-19	45-49	66-69	Pass	70% (B)

Mystery Shop Assessments Park Name	Assessment Type	Green	Amber	Red	Overall Result	2022 PQS & Grade
Bloomiehall Park	Mystery Shop	16	0	0	Green	72% (B)
Braidburn Valley Park	Mystery Shop	18	0	0	Green	80% (A)
Corstorphine Hill	Mystery Shop	12	5	0	Amber	81% (A)
Craigmillar Castle Park	Mystery Shop	15	3	0	Green	79% (B)
Easter Craiglockhart Hill	Mystery Shop	18	0	0	Green	86% (A)
Ferniehill Community Park	Mystery Shop	12	6	0	Amber	78% (B)
Ferry Glen & Back Braes	Mystery Shop	12	4	1	Amber	71% (B)
Figgate Burn Park	Mystery Shop	15	3	0	Amber	79% (B)
Hailes Quarry Park	Mystery Shop	11	5	0	Green	72% (B)
Harrison Park	Mystery Shop	13	5	0	Green	74% (B)
Hermitage of Braid / Blackford	Mystery Shop	14	3	0	Green	80% (A)
Hopetoun Crescent Gardens	Mystery Shop	14	1	1	Amber	77% (B)
Inverleith Park	Mystery Shop	13	5	0	Green	77% (B)
King George V Park (Eyre Pl.)	Mystery Shop	18	0	0	Green	74% (B)
Lochend Park	Mystery Shop	10	8	0	Amber	70% (B)
London Road Gardens	Mystery Shop	18	0	0	Green	73% (B)
Morningside Park	Mystery Shop	17	1	0	Green	73% (B)
Muir Wood Park	Mystery Shop	18	0	0	Green	74% (B)
Pentland Hills Regional Park	Mystery Shop	15	3	0	Amber	83% (A)
Portobello Community Garden	Mystery Shop	12	4	0	Green	72% (B)
Princes Street Gardens	Mystery Shop	12	5	1	Green	78% (B)
Ravelston Park & Ravelston Woods	Mystery Shop	18	0	0	Green	71% (B) 74% (B)
Saughton Park	Mystery Shop	18	0	0	Green	75% (B)
Seven Acre Park	Mystery Shop	16	1	0	Green	80% (A)
Spylaw Park	Mystery Shop	12	6	0	Green	73% (B)
St Katharine's Park	Mystery Shop	13	4	0	Green	76% (B)
St Margaret's Park	Mystery Shop	16	2	0	Amber	75% (B)
Starbank Park	Mystery Shop	18	0	0	Green	87% (A)
Victoria Park	Mystery Shop	14	3	0	Amber	73% (B)

Of the 35 results received, nine parks returned an amber warning in 2022, one fewer than last year. It is interesting to note that of the ten parks that returned amber results in 2021, six passed a full assessment and the other four improved sufficiently to receive a green mystery shop result in 2022.

The following table shows the GFA criteria where issues were identified by judges in the amber graded GFA parks in 2022. The schemes administrators will be looking for these issues to be addressed before the next assessment and will also suggest that some of these parks should undergo a full assessment next year to ensure standards are being maintained.

Park Name	Result	Criteria where issues have been identified
Corstorphine Hill	Amber	Welcoming; Signage; Equal Access; Litter and Waste Management; Building & Infrastructure Maintenance
Ferniehill Community Park	Amber	Equal Access; Horticultural Maintenance; Arboricultural Maintenance; Building & Infrastructure Maintenance
Ferry Glen & Back Braes	Amber	Equal Access; Safe Equipment and Facilities; Horticultural Maintenance; Building & Infrastructure Maintenance
Figgate Burn Park	Amber	Signage; Equal Access; Litter and Waste Management; Horticultural Maintenance; Arboricultural Maintenance; Equipment Maintenance
Hopetoun Crescent Gardens	Amber	Welcoming; Litter and Waste Management
Lochend Park	Amber	Signage; Litter and Waste Management; Horticultural Maintenance; Arboricultural Maintenance; Equipment Maintenance
Pentland Hills Regional Park	Amber	Good & Safe Access; Appropriate Provision of Quality Facilities and Activities; Safe Equipment and Facilities; Building & Infrastructure Maintenance
St Margarets Park	Amber	Horticultural Maintenance; Building & Infrastructure Maintenance; Equipment Maintenance
Victoria Park	Amber	Welcoming; Litter and Waste Management; Horticultural Maintenance; Building & Infrastructure Maintenance

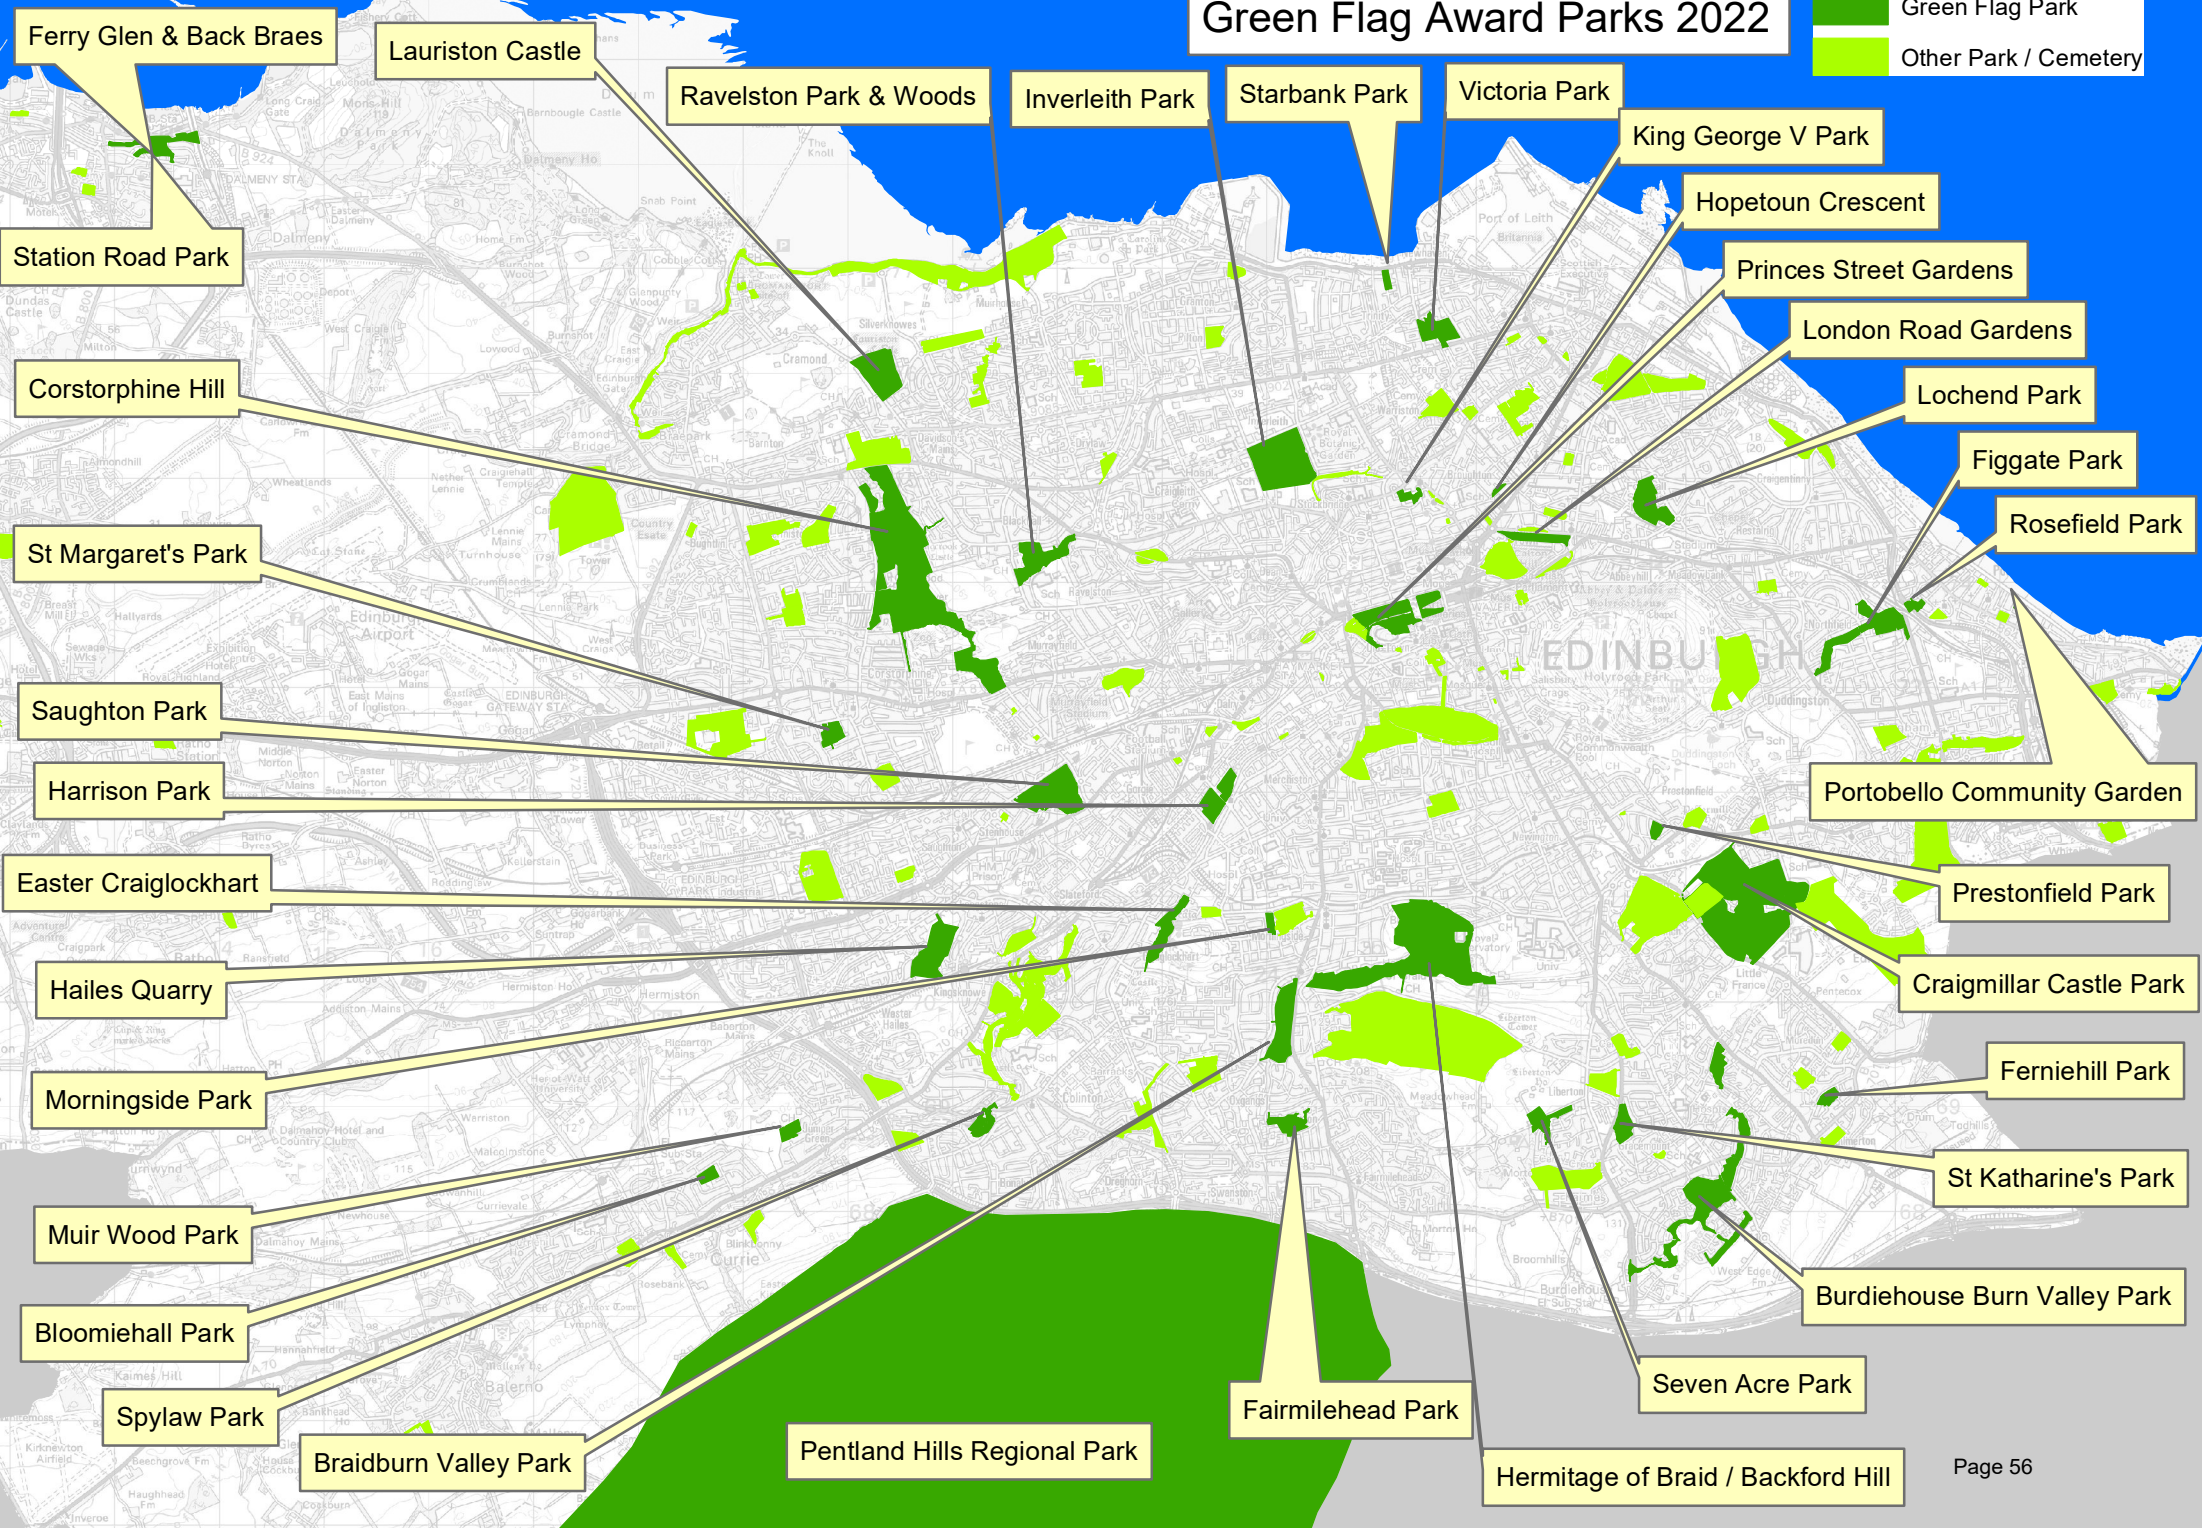

#### 6.4 Green Flag Award Highlighted Issues.

Green Flag Award judges highlighted 284 issues across Edinburgh’s 35 GFA parks, which have been aligned to criteria to show where improvements need to be made.

## 8 Desktop Criteria Scoring

As mentioned in the introduction to this document, some of the Green Flag Award field assessment criteria cannot be accurately assessed during a site visit and therefore we ask site managers to self assess those criteria to obtain a fuller picture of parks quality and to ensure that we retain options for benchmarking against other parks using the same scheme.

The guidance for scoring these criteria are periodically reviewed to ensure that current thinking and strategies are reflected in how parks are managed/maintained or when changes to the criteria are implemented by the administrators of the Green Flag Award scheme.

### **Managing Environmental Impact**

Here is the reasoning for the current citywide score of 6 out of 10; however, site managers can adjust this score if sustainable practices have been implemented on site.

Un-metered electricity usage (which will include street lighting and Christmas lights in park) is monitored and is included within the scope of the Council's Carbon Management Plan.

The city has a number of Air Quality Management Areas and these will cover city centre parks. However, we are actively seeking to redress our air quality problems through our Air Quality Action Plan.

We have a Green Fleet Policy which applies to all Council vehicles active in park management and a number of specific initiatives e.g. electric scooters for environmental wardens have been brought forward in recent years;

In terms of water, an extensive programme of water repairs and metering in parks was taken forward a few years ago as part of a Council-wide Water management Project

Some parks may occasionally suffer from or be the source of noise pollution. However, an extensive programme of citywide noise mapping has been completed and a Noise Action Plan has been prepared by the Council and its partners.

### **Waste Minimisation**

The scoring of this criterion was reviewed in 2019 in an attempt to provide more accurate and fair scoring between areas when in theory the same practices will be universally applied throughout Edinburgh. However, managers will be making further decisions on a park by park basis and therefore some flexibility should be afforded in the guidance and scoring.

Score	Guidance
10	Specific strategy to minimise waste and where waste is generated, it is recycled as much as possible. Further monitoring with a view to ensuring that all materials used on site are recyclable.
9	Specific strategy to minimise waste and where waste is generated, it is recycled as much as possible. Further monitoring with a view to ensuring that materials used on site are recyclable as much as possible.
8	Council's litter recycling policy is adhered to. Specific strategic planting to minimise green waste. Where green waste is generated, it is re-used or composted on site.
7	Council's litter recycling policy is adhered to. Planting to minimise green waste. Where green waste is generated, most/all is re-used on site but some may be removed for recycling elsewhere.
6	Council's litter recycling policy is adhered to. Specific attempts are made to minimise green waste. Where green waste is generated, some is re-used on site but most is removed for recycling elsewhere.
5	Council's litter recycling policy is adhered to. Where green waste is generated, some is re-used on site but most is removed for recycling elsewhere.
4	Council's litter recycling policy is adhered to. Where green waste is generated, all is removed for recycling elsewhere.
3	Council's litter recycling policy is adhered to. Where green waste is generated, most is removed for recycling elsewhere but some goes to landfill.
2	Council's litter recycling policy is adhered to. Where green waste is generated, some is removed for recycling elsewhere but most goes to landfill.
1	Council's litter recycling policy is adhered to. Where green waste is generated, it all goes to landfill.

### **Pesticides/Herbicide**

The scoring of this criterion is based on the decision to use chemical in parks and what actions site managers are taking in trying to reduce the amount used. The guidance was updated in 2019 in an attempt to provide more accurate and fair scoring between areas when in theory all parks should be adhering to the same decision that chemicals should only be used in Edinburgh's parks when absolutely necessary.

The following scoring guidance should be used:

Score	Guidance
10	Decision made not to use chemical under any circumstances
9	Decision made to not use pesticide/herbicide on site unless to control NNIS.

8	Alternative methods of weed control are used on site (mulching, hand weeding etc) which can be evidenced. Where chemical is used, it is used minimally, and a decision has been made to monitor and reduce the amount of pesticide/herbicide used with a view to total eradication over an advertised set period.
7	Alternative methods of weed control are used on site (mulching, hand weeding etc) which can be evidenced. Where chemical is used, it is used minimally, and a decision has been made to monitor and reduce the amount of pesticide/herbicide used with a view to ensure that chemicals are only used when absolutely necessary
6	Some methods of cultural weed control are used on site and efforts are made to monitor and reduce pesticide/herbicide use. i.e. spot treatment of weeds only.
5	Pesticide/Herbicide is used on site i.e. along edges, in channels to control weed growth and/or in bed preparation but is monitored.
4	Pesticide/Herbicide is used on site i.e. along edges, in channels to control weed growth and/or in bed preparation but is not monitored.
3	Pesticide/Herbicide is used liberally on site but is monitored.
2	Pesticide/Herbicide is used liberally on site and is not monitored.
1	Pesticide/Herbicide is used excessively on site

### Peat Use

The only use of peat by the Parks and Greenspace Service is in the production of bedding plants at the Council's Inch Nursery. A number of alternatives to peat have been incorporated into the growing mixes for plant production at the nursery, including; compost derived from the Council green waste collections, the nurseries own compost, worm cast, fine bark, vermiculite and sand. It was agreed that a score of 7 should apply where bedding is used in a site and 10 where no peat is used.

### Climate Change Adaptation Strategies

A citywide score of 6 out of 10 has been applied based on the action plan in the Edinburgh Adapts Strategy, however, site managers can increase this score if additional actions have been implemented on site.

### Conservation of Landscape

It was agreed following last year's assessment and at the Green flag forum that the guidance for this criterion should be reviewed to ensure that only parks that have an area of natural or historic interest, designation, Green Flag Park or park within a historic area should be subject to a score otherwise n/a should be applied.

Score	Guidance
10	Site has a specific conservation plan that is being adhered to and is also designated an area of natural or historical interest.
9	Site has a specific conservation plan that is being adhered to.
8	Site is designated an area of natural or historic interest and has a management plan that provides details on how the site is being conserved and is being adhered to.
7	Site has important views/areas of natural or historical interest/plant collections and is being managed to ensure that these features are being conserved to a good standard.
6	Site has important views/areas of natural or historical interest/plant collections and most of these features are being conserved to a satisfactory standard.
5	Site has important views/areas of natural or historical interest/plant collections but <b>some</b> of these features need improved conservation management.
4	Site has important views/areas of natural or historical interest/plant collections but <b>most</b> of these features need improved conservation management.
3	Site has important views/areas of natural or historical interest/plant collections, but <b>all</b> of these features need improved conservation management.
2	Site has important views/areas of natural or historical interest/plant collections but are in danger of being lost unless immediate action is taken.
1	Site has important views/areas of natural or historical interest/plant collections but have been lost due to poor conservation management.

## **Community Involvement**

The following guidance was used to judge the involvement of each site:

9-10	Very active in managing, maintaining and marketing the park. Holds lots of events, fundraising etc. Meets regularly.
8	Active in maintaining and marketing the park. Involved in management decisions regarding the park. Holds events, fundraising etc. Meets regularly.
6-7	Good involvement in maintaining and marketing the park. Holds some events etc. Meets regularly. School or sports club regular involvement.
5-6	Periodic involvement in maintaining and marketing the park. Periodic events. Meets Periodically. School or sports club occasional involvement.
3-4	Group exists with occasional involvement in maintenance or marketing. Meets occasionally.
2	Historical involvement but no longer active in maintenance or marketing. No meetings.
1	No group exists and no community involvement.

## **Community Provision**

A score of 6 out of 10 was awarded to every site based on the support from the Council in the form of providing facilities for community use, funding and support from Council Officers. Site managers can propose a new score if accompanied with evidence that additional community facilities/support are provided.

## **Marketing**

The following scale was used to judge Marketing and Promotion of each site unless site managers proposed a new score accompanied with evidence.

Score	Guidance
7-10	Site with community group or site manager producing regular newsletters, frequent updates of relevant and topical information in notice boards, frequent updates on websites.
7	Natural Heritage Site, Green Flag Award site
6-7	Notice boards and websites (Council, Edinburgh Outdoors, myParkScotland) frequently updated.
4-5	Notice board on site updated occasionally. Council and Edinburgh Outdoors listing only.
3-4	Notice board not or infrequently updated. Council and Edinburgh Outdoors listing only
1-2	Council and Edinburgh Outdoors listing only.

9 Park Quality Assessment / Green Flag Award Process
